

How To Change you Password in G-Mail

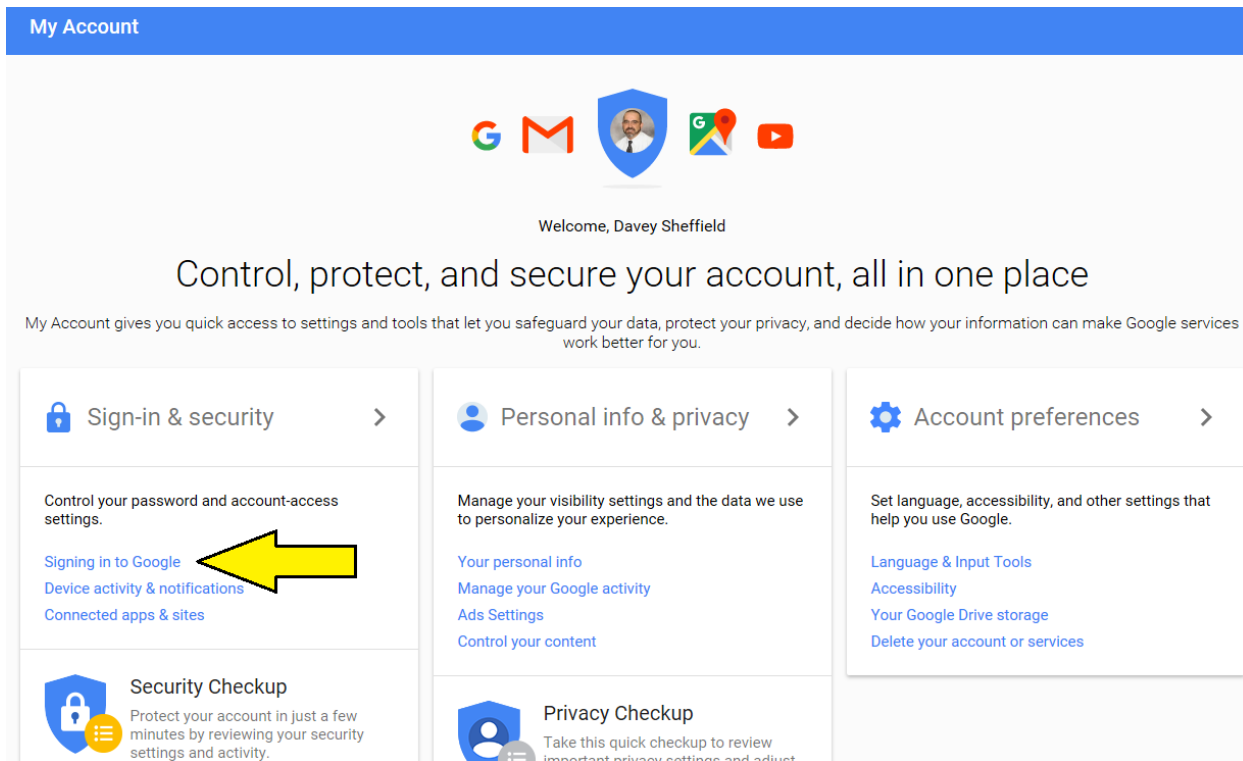

1. Log in to your e-mail account as normal. Once to your e-mail, click on your name or photo in the upper right side of the screen to access your user profile.

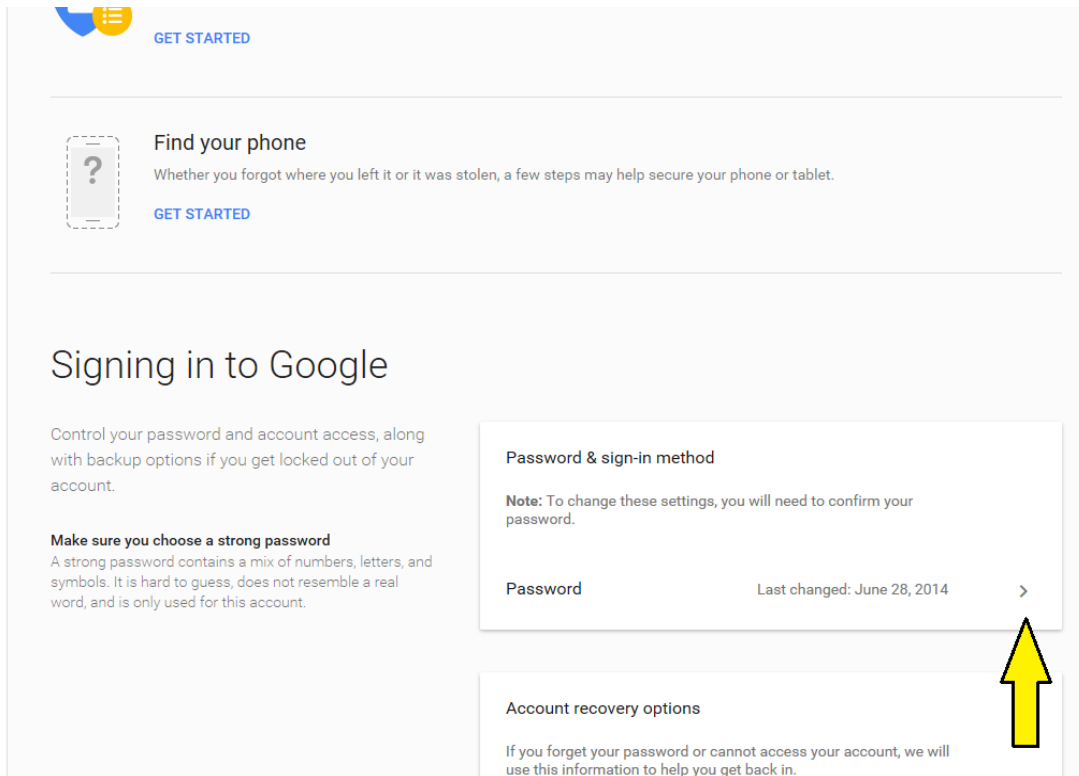

2. Click on **My Account**.

3. Click on **Signing in to Google**.

4. Click the arrow beside **Password**.

Signing in to Google

Control your password and account access, along with backup options if you get locked out of your account.

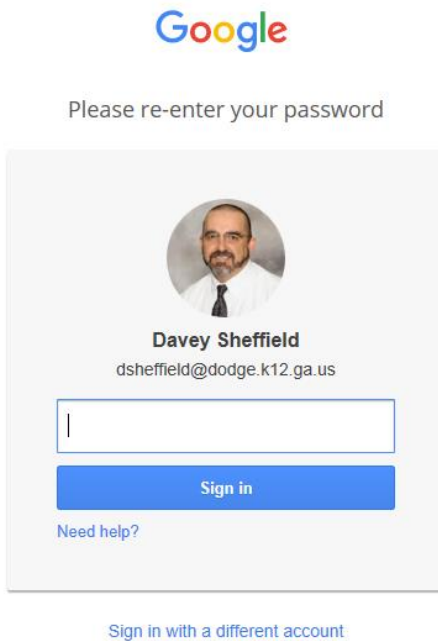

Make sure you choose a strong password
A strong password contains a mix of numbers, letters, and symbols. It is hard to guess, does not resemble a real word, and is only used for this account.

Password & sign-in method
Note: To change these settings, you will need to confirm your password.

Password	Last changed: June 28, 2014	>
-----------------	-----------------------------	---

Account recovery options
If you forget your password or cannot access your account, we will use this information to help you get back in.

5. You will be prompted to re-enter your password.

- . Enter your **New password** then click the **Change Password** button.

← Password

Choose a strong password and don't reuse it for other accounts. [Learn more.](#)
Changing your password will sign you out of all your devices, including your phone. You will need to enter your new password on all your devices.

New password

Password strength:
Use at least 8 characters. Don't use a password from another site, or something too obvious like your pet's name. [Why?](#)
